MERN Stack Developer with hands-on experience in building scalable, secure, and high-performance web applications. Currently working as a Teaching Intern at Aptech, delivering practical training in MERN Stack, Next.js, and PHP development. Skilled in designing REST APIs, implementing authentication systems (JWT, OTP), and building modern UI using React, Next.js, and Redux. Passionate about clean architecture, performance optimization, and real-world problem solving.

TECHNICAL SKILLS

Frontend

- HTML5, CSS3, Bootstrap
- JavaScript (ES6+), TypeScript
- React.js, Redux Toolkit
- ShadCN UI

Backend

- Node.js, Express.js
- REST API Development
- Authentication (JWT, Cookies, OTP)
- PHP, Laravel
- Nodemailer

Database

- MongoDB
- MySQL

Other Technologies

- A.I API Integration
- Git, GitHub
- JSON, API Handling

Education

ACCP Computer Science - Aptech

Sep 2023 - Present

Bachelor of Commerce – University of Karachi

2023 | 1st Division

Certificates

Introduction to Front-End Development (Meta)	Nov 2024
Introduction to Back-End Development (Meta)	Nov 2024
M.S Office (Aptech)	Dec 2023
Amazon FBA (Enablers)	Dec 2023
Visual Designing Course (Techzone)	Dec 2020

Awards

Aptech Ambassador	May 2025
-------------------	----------

Work Experience

Teaching Intern

Dec 2025 - Present

Aptech Learning (Shahrah-e-Faisal)

- Deliver hands-on training in MERN Stack (MongoDB, Express, React, Node) and PHP development.
- Guide students in building full-stack applications with real-world practices.
- Teach authentication systems including JWT, cookies, and OTP verification.
- Assist students in debugging, project structuring, and best coding practices.
- Improve student project success rate and technical understanding through practical mentoring.

Computer Teacher

Aug 2025 – Dec 2025

Boston Grammar School

- Taught computer fundamentals and programming basics to students (Grades 3–10).
- Designed engaging lessons and improved student participation.
- Strengthened students' digital literacy and logical thinking skills.

Projects

Fitness Tracker Application (MERN Stack, Redux, ShadCN) | Personal Project

GitHub: <https://github.com/MArsalanwarsi/fitness-tracker-React.git>

- Developed a full-stack fitness tracking system with JWT authentication and cookie-based session management.
- Implemented OTP verification system using Nodemailer, enhancing user security.
- Built scalable REST APIs for managing users, workouts, and data flow.
- Integrated Google Gemini API for intelligent recommendations.
- Designed responsive UI using React + Redux + ShadCN.
- Reduced invalid data submissions by 40% through strong validation.
- Improved application performance and responsiveness by 30%.

K-Medicos Medicine E-Commerce Store (PHP) | Personal Project For Aptech Vision 2024

k-medicos.free.nf

- Developed a full-featured e-commerce platform for medicine purchasing.
- Implemented drug interaction detection system for user safety.
- Built scalable backend and dynamic UI.

Master Wood Works Furniture E-Commerce Store (PHP) | Client Project

- Developed custom e-commerce website with CRUD inventory system.
- Integrated WhatsApp ordering system for direct customer communication.

ABC Mall & Cinema Management System (ASP.NET MVC) | Personal Project

- Developed full-stack system with authentication and booking flow.
- Built admin dashboard for managing system operations.
